## CONTEXT

Education and training are seen as key actors in the development of a knowledge society. And more recently, the role of education and training in strengthening a shared European identity is stressed. Therefore, both the EU and the member states put forward daring targets to energize the sectors of education and training making them more performing.

## A SHORT HISTORY OF EUNEC

In order to give these innovation policies a broad societal support, governments mobilize the educational and social-economic stakeholders such as representatives of school boards, teacher trade unions, parent and student organizations and social partners to participate actively in the conception and the implementation of policies and activities in education and training.

Therefore most of the member states have set up national or regional formal institutions of consideration and consultation, bringing together all these stakeholders or part of them, in some cases together with experts, to formulate their recommendations.

Education councils have diverse statutes, but they all function as an advisory body towards governments on future education policies.

In 1999, some councils decided to work together on European educational subjects, and, to encourage a closer and more intense cooperation, the education councils created in 2000 EUNEC, a **European network of national and regional education councils**, with the support and the help of the European Commission.

From 2008 until 2013, EUNEC was recognized and granted as European organisation acting at European level in the field of education and training under the Jean Monnet programme (DG EAC N° 28/07). Within this programme, EUNEC obtained two consecutive three year Framework Partnership agreements.

In 2014, EUNEC was granted under the Erasmus+ programme, Key Action 3 for civil society cooperation in the field of education and training. This grant allowed the network to continue its efforts to enhance cooperation on education and training in Europe and to aim for more sustainable results.

From 2015, EUNEC is no longer granted under Erasmus+, because of changes in the eligibility criteria. EUNEC continues its work and pursues its objectives, supported by member contributions.

## MISSION

EUNEC is convinced that all those involved in education (the European Commission, the governments of the Member States, the education councils, the stakeholders and all European citizens) can benefit from this European network where major evolutions in educational systems can be discussed thoroughly and prepared for a successful implementation.

EUNEC aims to discuss the findings of European policy documents in the field of education and training, to determine points of view and to formulate statements on these issues. EUNEC wants to disseminate these statements pro-actively towards the European Commission, relevant DGs and other actors at European level, and to promote action by EUNEC members and participants at national level. EUNEC has the objective that the councils should put the main international policy lines high on the national agenda.

### **EUNEC wants to work in two directions:**

EUNEC wants to disseminate and discuss - at the national and at the European level - documents, texts, studies... that are launched by the European Commission within the framework of the Europe 2020 Strategy, the Bologna process, the Copenhagen process, Education and Training 2020 and the upcoming frameworks, mainly the European Education Area. With sound and coherent statements, the members of EUNEC want to influence the discussions and the decisions on the major European issues in education and training both on the European and on the national level.

## TARGET GROUPS

Through the members, education councils, EUNEC reaches stakeholders, experts and policy makers in the field of education and training in Europe.

EUNEC members are education councils. An education council must meet the following criteria (Statutes, Chapter II, art. 6.1):

- The council operates as a permanent body
- The council acts independently from any single interest through the presence of a range of members from different social groups, political affiliations and/or academic perspectives.
- The council has as principal goal to provide advice on educational and training policy.
- The advisory role is embedded in the policy making process at the level where the main competences on education and/or training policy are attributed.

The composition of the education councils guarantees the involvement of all the principal stakeholders in education in a region/country. This way, EUNEC wants to reach all stakeholders (policy makers, social partners, parents, students, teachers, providers...) in education throughout the European Union and beyond.

### PREPARATION OF A READER 'EDUCATION COUNCILS IN EUROPE. GOING BEYOND THE TENSIONS'

The network decided to prepare a reader with contributions of EUNEC members on the role and functioning of education councils in Europe, and beyond.

The letter below, sent by EUNEC president, Mr Manuel Miguéns, explains the intention and invites member councils to contribute:

*Dear colleagues*

*I am writing to you about our initiative to celebrate the EUNEC 20<sup>th</sup> anniversary.*

*Our network was founded in the year 2000 by a group of Education Councils that recognized the relevance and benefits of close collaboration and envisaged networking and partnership as the best approaches to identify and disseminate good practices helping education councils to fulfill their missions within a European context.*

*We have agreed in Paris that we would prepare a special publication, a book that will include a set of articles written by invited authors from each one of the countries that have an Education Council as a member of EUNEC.*

*It would be perfect if the articles reflect a perspective of the history, the role, the relevance and the future of Education Councils in the context of the policy-making processes, including the relationships with Parliament, Government, and*

*civil society. In a way, demonstrating the relevance of structured and institutional*

*consultation in the decision making processes concerning education policies.*

*Thus, I thank you in advance for all your efforts to make sure that your Council's paper and your country representation are included in that book commemorating the 20<sup>th</sup> anniversary of our network.*

During the working year 2020, the reader has been prepared. The book (online and printed availability) will be presented to the General Assembly in Spring 2021, and contains, following an introduction by EUNEC president, Manuel Miguéns and by EUNEC secretary general, Mia Douterlungne, the following articles, written by ten EUNEC member organizations:

## CONSULTATION ON THE POSITIONS OF EDUCATION COUNCILS REGARDING THE COVID-19 PANDEMIC

EUNEC took this initiative in order to gather insights from all the members, facing similar challenges during this global crisis, so that they can inspire and learn from each other. The results of this consultation can also feed the debates during the upcoming seminar on the theme ‘Are our education systems fit for the future?’, a theme which has become even more relevant today.

In July 2020, members were invited to participate to a consultation, based on the questions below.

Results of the consultation have been published at [www.eunec.eu](http://www.eunec.eu). The results will be the basis of further digital exchange at the occasion of the 2021 Spring general assembly meeting.

## EUNEC RESPONSE TO EUROPEAN COMMISSION CONSULTATIONS

The European Commission published a roadmap for their initiative to release a Communication on ‘**Achieving the European Education Area**’. It will set out specific actions and targets to establish a European Education Area by 2025. This roadmap was open for feedback.

As the European Education Area was the central topic of the EUNEC seminar (May 2019), the conclusions of the seminar ([statements](#) agreed

by all our members) to the European Commission. Feedback will be taken into account for further development and fine tuning of the initiative. The Commission will summarize the input received in a synopsis report explaining how the input will be taken on board and, if applicable, why certain suggestions can't be taken up.

(Feedback reference F543652 Submitted on 17 August 2020)

## NETWORKING BETWEEN MEMBERS FOR SHARED ACTIVITIES

EUNEC members regularly work together by means of bilateral contacts or in subgroups on specific themes in the field of education and training, according to their own national agenda or to the European agenda.

Executive committee meetings, general assembly meetings and seminars are excellent occasions to see which colleagues from other education councils could offer help or work together on specific themes.

## EUNEC Year Book 2020

---

In order to prepare a specific event or a specific document, the members of the executive committee decide to organize temporary working groups: A working group (Flemish Education Council, Portuguese Education Council, Dutch Education Council) has finalized the programme for the seminar on the theme 'Are our education systems fit for the future?' and the anniversary celebration. Unfortunately, this event had to be postponed. The preparation results will be taken forward to the organization of the event as soon as possible.

The Flemish Education Council and the Dutch Education Council have close contacts between staff members on thematic issues, following first contact during two exchange meetings. The secretary director of the Dutch Council had an exchange meeting with the secretary general of the Flemish Education Council.

The invitation for the [transnational comparison conference](#) on continuous professional development of education staff, organized by Cnesco, has been forwarded to all members. Several EUNEC members representatives participated actively and shared material in their own organization.

There is a [bilateral cooperation agreement](#) between the Conseil supérieur de l'éducation (Québec) and the Conseil supérieur de l'éducation, de la formation et de la recherche du Maroc.

CNE closely works together with the CEE (Consejo Escolar del Estado, Spain) and has a bilateral agreement with the Higher Council for Education, Training and Scientific Research, Morocco.
