FOSTERING KNOWLEDGE & EVIDENCE IN ADVICE

Prepare a
technical report

BUILDING ADVICE

*The diversity in the membership and the knowledge, experience and expertise brought to the reflection and debate allow the production of advice combining the views of stakeholders with those perspectives supported by evidence. **

5 — Recomendações

As recomendações que se seguem são fruto da consulta de documentos nacionais e internacionais, de um Relatório Técnico de apoio elaborado pelo CNE (Rodrigues, Gregório & Gonçalves, 2021), e de um conjunto de audições a diversos intervenientes (alunos/as e professores/as de vários níveis de ensino, representantes de diretores de agrupamentos de escolas) e a entidades especializadas na área da educação. Foram recolhidos os seus depoimentos e procedeu-se a uma síntese que consta no referido relatório.

5 — Recommendations

The following recommendations are the result of consulting national and international documents, a **technical report** prepared by CNE (Rodrigues, Gregório & Gonçalves, 2021), and a set of **hearings** with various stakeholders (students and teachers from various levels of education, representatives of school directors) and **specialized** entities in the field of education. Their testimonies were collected and a synthesis is included in the aforementioned report.

*... the launch of recommendations [are] prepared over an extended period of time that include contributions collected through **scientific studies, seminars, hearings, debates, meetings of specialized committees** and **plenary sessions** of the Council... **
