

## EUNEC SEMINAR

### *'Bildung' in a lifelong learning perspective*

*Budapest, 9-10 May 2011*

#### PROGRAMME

**Venue of the seminar:**

*Mercure Budapest Korona Hotel, Kecskeméti utca 14, Budapest*

The aim of this seminar is to share experiences, to reflect together and to make proposals related to the theme of *Bildung* in education, in order to allow education to prepare youngsters to a happy life, with equal opportunities.

We want to enhance the common understanding of the concept of *Bildung* between the member councils. This is one of the elements to be kept in mind when the network will reflect on 'New skills for new jobs' in autumn this year.

The proposed methodology is a combination of input by representatives of education councils and by experts, and of debate leading to statements. These statements will be communicated to the member councils, to the European Commission and to the European Parliament.

### **Monday 09 May 2011**

*Chair of the day: Mia Douterlungne, EUNEC general secretary*
